District level tennis player, hiking & trekking, swimming

Personal Statement

I would like to highlight how I acquired an interest in business studies. I grew up in an academic environment, wherein I had easy access to business literature such as autobiographies of top entrepreneurs, management books and business magazines. As a curious child I flipped through pages, and gradually found it be very interesting.

As a result, it was a natural choice to pursue the commerce stream during my senior secondary schooling. I studied Economics, Accountancy, Business Studies, Mathematics and English. I am now pursuing BBA Business Analytics. With the help of my skills and experience over time, I wish to be a successful entrepreneur who contributes to the larger society.
